MESSAGE

I am happy to learn that the University of Science & Technology (USTM), Baridua, 9th Mile Ri-Bhoi, Meghalaya is launching a Horse Riding Club in its campus on the 10th April, 2021 and to mark this auspicious occasion a brochure is being published.

Ten years in the history of any institution is indeed a landmark to be able launching of a Horse Riding Club. With great joy and gratitude, it is also a time to look into the past few years and make plans for the future so as to make the University a centre of excellence for education with various curricular activities that will promote sports.

On this occasion, I take the opportunity to recall and appreciate the wisdom and the vision of the founder for establishing the University with the objective to cater to the educational needs of the rural population. I hope that the University will produce a number of achievers in various fields who will contribute in the overall development of the state in particular and the country in general.

I am sure that the University will continue to motivate its students to strive not only for academic excellence but also develop a sense of morality in them so that they become good citizens who will make positive contributions to our country.

I convey my warm wishes and felicitations to the Chancellor, all the members of the USTM, teaching and non-teaching staffs, students, guardians and well wishers on this happy occasion.

I wish the launching of a grand Horse Riding Club all success.

(Banteidor Lyngdoh)
